

# OxyRESQ

The NEANN Professional Series of Kits the latest NEANN designs, utilising the state of the art manufacturing methods and newly developed EnvironFrei materials, this is the kit range of the year!

NEANN kits achieve their pre-eminence in the Australian market with meticulous attention to detail and unrelenting pursuit of continual improvement.

-  **No search and select issues**  
Being laid out in a uniform manner eliminates search and select issues for the paramedic in the field by having each item presented in the order of use. Unique internal labelling system for rapid location of equipment in an emergency, makes certain that there is a place for everything and everything in its place.
-  **Minimised risk of contamination**  
NEANN's newly developed, revolutionary material, EnvironFrei minimises the chance of cross-contamination as it is easy to clean and environmentally friendly.
-  **Detachable kits**  
Range of detachable pouches / mini kits so you can build up the kit based on your individual needs. You have the option to configure the kit to the level of care and the equipment you want to carry. The Top Airways Pouch and/or End Suction Pouch can be detached if not required.
-  **Light and easy to see colours**  
Vibrant range of colours available: red, blue and green. Highly reflective tape also comes with these stunning kit colours to ensure product visibility is optimised.
-  **Ergonomically designed**  
To ensure maximum safety for the user by reducing the chance of related manual handling injuries, this ergonomically designed kit is safe for everyday use in multiple environments. This is the lightest resuscitator on the market.
-  **Easy to use**  
Proven 24/7 use for over five years offers extraordinary long life. Product used by multiple Ambulance Services throughout Australia.

**NEW ENVIRONFREI MATERIAL • MINIMIZING CROSS-CONTAMINATION  
VIBRANT COLOURS • LIGHTEST PRODUCT ON THE MARKET!**
