# NEANN

NEANN is the medical equipment division of RAPP Australia Pty Ltd. The focus of the division is to design, develop and provide first response, emergency and hospital medical equipment and supplies that are effective, reliable and safe to use.

NEANN is a leader among medical equipment suppliers and our products can be found in use around Australia in most ambulances, hospitals, clinics and emergency services teams. RAPP Australia Pty Ltd holds ongoing contracts with all State Governments in Australia as well as leading emergency agencies worldwide.

The division works in collaboration with clients to ensure all equipment performs as intended. NEANN is the exclusive Australian distributor to companies including, but not limited to Mercury Medical, Allied Healthcare Products, VeinLite and Oxylite.

## NEANN MEDICAL KITS

Why buy from us? NEANN is Australia's largest manufacturer and leading designer of emergency medical kits supplying soft packs to 90% of Australia's Ambulance Services.

Our Medical Kits are manufactured from the most modern, state of the art material. Historically, our kits have been manufactured using Vironfrei material. Our kits have evolved through research and development to be produced using our new material called EnvironFrei. EnvironFrei has been independently tested, confirming its superiority to common place materials ensuring a stronger, longer lasting and more durable product.

At NEANN we understand the importance of cross-contamination and infectious control issues in the workforce. EnvironFrei directly combats this every increasing issue. Innovation in this area is constantly being achieved to deliver the best results to meet our

customers needs. A recent example of this would be our aVector handles which are designed to eliminate the effects of cross-contamination on our medical kits at the highest area of risk.

Our products are designed so that everything has a place and everything is in its place, there are no search and select issues with NEANN products. Layout guides and access panels are supplied with most NEANN products to aid the user with one of the most important issues, saving time.

Do you know what are you looking for in your kit? Do you require your kit to be tailored to your working needs? Do you know that NEANN can help you customise a kit or bag to any budget that will suit your business? With years of design experience, NEANN can deliver a product to suit your needs, in addition we can alter any of the bags from our range above.

# ENVIRONFREI—DEMAND IT!

In our endeavors to continually improve on what we do, and what we deliver, we at RAPP Australia believed that using a lead based PVC material was not in the best interests of both our customers and indeed the planet. We felt a responsibility to take steps and make changes to improve the products we were currently producing. We embarked on a journey of discovery to deliver a better solution to this very real issue. Developing a material that is inline with our ethos of delivering Effective, Reliable and Safe to Use products, presented many issues, none more important than the relationship between: the functionality, the user and the environment!

With this focus front of mind we have successfully developed what is now known as EnvironFrei. This revolutionary material is free from hazardous elements, delivers a strong fabric that minimises the chance of cross-contamination. It also prevents dangerous chemicals remaining on the surface which, could in turn be absorbed into your skin.

The introduction of EnvironFrei has been greatly received and the uptake has been quick. Essentially we achieved our goal by developing a product that has proven to be durable, effective in protecting the user, and environmentally sensitive – in addition to looking great!

EnvironFrei has been independently tested, confirming its superiority to common place materials ensuring a stronger, longer lasting and more durable product.

# NEANN HITH VEHICLE KIT

The NEANN HITH Vehicle Kit is designed to provide room to carry all the days' patient notes, a laptop, fluids, extra patient specific drugs or consumables you may need with a handy trolley to guide around in for ease of transport.

The NEANN HITH Vehicle Kit and the NEANN HITH Equipment Kit complement each other to provide the ultimate set of Hospital In the Home transport of medical supplies.

## Potable Device

This kit has the added feature of being able to be attached to a folding trolley (sold separately) which makes it effortless to move around.

## Multiple carrying devices

A bonus feature about the use of the folding trolley is that there is plenty of room to store the NEANN HITH Equipment Kit directly above.

## Movable Dividers

Inside the kit you are able to move the dividers to suit your personal needs to organise folders, paperwork and to separate items such as the fluids pouch.

## Bonus NEANN Chiller Insert

A bonus edition included with the HITH Vehicle Kit is the NEANN Chiller Insert which can contain two Esky ice blocks to assist in keeping sensitive medical contents cool.

## Made in Australia

# NEANN HITH EQUIPMENT KIT

Specifically designed for the Hospital in the Home (HITH) professional current hospital departments. Benefiting from this system is the Alfred Hospital, Sunshine Hospital and Logan Hospital to list just a few. This kit is a premium quality solution to your equipment carrying needs by enabling the user to provide a professional clinical visit without interruptions.

## Light and convenient

The NEANN HITH Equipment Kit is designed to be as light as possible and provide enough equipment for day to day duties. With our new bright EnvironFrei material colours, this kit is easy to see in any situation and the surface is simple to clean.

## Product specific allocation including personal items!

From the Obs equipment to IV, there is no search and select issues as everything has a place and everything is in its place. This is due to the simple layout design which makes restocking quick and easy.

The Equipment Kit also has a handy front pocket for the option to place personal items such your keys, phone and patient notes.

## Convenient Desk space

When space is an issue the Equipment Kit provides a convenient wipe clean desk area that can be simply removed (as it is detachable) or replaced if required.

## Replaceable parts

Replaceable parts are available for the HITH Equipment Kit including the very comfortable shoulder strap and exterior base.

## Designed to suit your situation

HITH Equipment Kits can be designed to suit your individual situation or requirement. Just give us a call and we will be happy to customise a kit to suit your environment.

## Ampoule Openers

Health Care Industries use millions of ampoules annually. Breakages, cuts and contamination of contents have always been a safety concern resulting in wasted resources.

The Snapit Solution is simple, safe and cost effective. Snapit is made from durable, anodised aluminium ensuring a once only investment provides ongoing safety.

Protects the hands,  
An effortless open every time due to extended lever action,  
"Just snap it." It's a reusable device - hence great value!

## LSP Pocket Mask

Face Mask with Oxygen Inlet, Head Strap, One Way Valve and Filter

The patented Life Support Product (LSP) one way valve system has minimum airway resistance and provides extremely effective patented viral and bacterial filter, which prevents air or contaminants from reaching either the rescuer or the patient.

The LSP filter is strategically located above the one way valve system to prevent blood, vomit or debris from saturating the filter, thereby preventing it from becoming inoperable. All masks come standard with an oxygen inlet which can be left blocked if not required.

## Spirigel 60ml

Personal issue bottle with integral pump dispenser that also locks the bottle shut.

Spirigel contains emollient to moisturise the skin and help reduce drying and chapping. The formula dries without tacky build up to leave skin feeling refreshed and silky smooth.

Gel formula melts at body temperatures providing a controlled release liquid ethanol to all skin contact surfaces. For decontamination of physically clean hands.

Supplied in a carton of 24.

## VeinLite LEDX

VeinLite LEDX's C-Shaped design and 32 LEDs in two colours means that superficial veins can be seen and accessed anywhere on the body. It secures the vein in place and stretches the skin for easy needle insertion without any guess work.

Features:

- Best ultra portable system on the market,
- Disposable plastic covers protect the device from contamination and cross-contamination,
- Light shield and paediatric adapter supplied,
- Weight including battery - 83g.
