

Mercury Medical®

FLWSAFE® II

DISPOSABLE CPAP SYSTEM

When lives hang in the balance, you need a disposable CPAP system that lives up to the challenge.

The Flow-Safe II Disposable CPAP System from Mercury Medical provides many advantages in life-saving emergencies. Including:

✓ Over 50% Less Oxygen Consumption

The Flow-Safe II conserves oxygen while maintaining high FiO₂ delivery. Saving resources represents a major advantage on long transports. In addition, it can be used with standard regulators.

✓ Built-in manometer and pressure relief valve

The Flow-Safe II system features a built-in manometer for verified pressure readings. No assembly required. And the pressure relief valve automatically adjusts to avoid excess pressure.

✓ Nebulizer with in-line capability to administer meds without removing mask

The Flow-Safe II offers the capability of an in-line nebulizer. Clinicians can administer meds without the need for mask removal.

✓ Advanced mask design

The Flow-Safe II mask is lighter, easier to handle and is designed to form a better anatomical seal. The elastic head harness is easy-to-place with Velcro straps that easily adjust for patient comfort.

- Includes Quick Disconnect Clips
- Straight Rotating Port
- Soft Forehead Padding that takes pressure off the nose and easily adjusts.

MORE EFFICIENT • MORE EFFECTIVE
MORE COMFORTABLE • MORE COMPACT • SAFER
than other disposable CPAP devices.

WWW.NEANN.COM.AU

is a division of RAPP Australia Pty Ltd

Pre-eminent supplier of pre-hospital emergency and rescue equipment for First Responder, Ambulance and Fire Services since 1983

Provider of ancillary emergency products for all emergency situations including military, mining, diving and other recreational activities
